

**AttackPAK**  
Integrated Load Carriage System (ILCS)

## Falcon Jump Pack

Part #: 108-MCM

### Features

- Weight reduction through smarter design
- Industry leading ExoSpine frame improves user balance and brings the pack closer to your center of gravity to decrease fatigue
- Compatible with AttackPAK gun belt for industry leading biomechanic integration with combat equipment
- Bellows back panel creates motion activated airflow. Also allows for perfect anatomical load carriage without bolstering or standoff from vest.
- Telescoping shoulder straps fit the 95th percentile user
- Dual zip front panel allows easy access to every corner of the pack
- Water resistant, IR Compliant, YKK® aquaguard zippers
- Integrated jump harness attachment using type 7 webbing, using #138 thread and 1000d fabric
- ABS frame system reduces weight and improves strength
- Mission customization with internal and external MOLLE webbing
- Loop fields on lid and access panel to allow for necessary designation and safety embellishments
- Designated routing ports for comms and hydro on both sides of the pack. Sealed when not in use

- Durable Mil-Spec 500d and 1000d Cordura®
- 3.75 Pounds
- 2300 Cubic inches
